Remember to start with general questions about the picture

- What do you think these are?
- Why do you think they are in a carton?
- Where do you think you might see them?

Llygaid Mathemateg

Put your "Llygaid Mathemateg" on. What do you see now?

- What shapes can you see?
- Can you see any patterns?
- How many eggs in a row? 2 rows?
- How many eggs altogether? Estimate then check.
- What is the easiest way to count the eggs?
- If I have all the yellow eggs, how many more do I need to make 10?
- If I smash all the green eggs, how many will I have left?
- Is there an odd or even amount of blue eggs?
- Is the total amount of eggs odd or even?
- Can you use mathematical language to describe where the orange eggs are?
- What colour is the 4th egg in the fifth row?
- How many eggs would we have if we added one more to each row?
- How many eggs would there be if there was one less in each row?
- Which season are you most likely to see these eggs?
