

Remember to start with general questions about the picture

- ✚ What do you notice?
- ✚ What animals do you think these are meant to be? Why?
- ✚ Do you think the animals are hard or soft?

Put your “Llygaid Mathemateg” on. What do you see now?

- ✚ How many pairs of ears can you see?
- ✚ Can you see any straight lines?
- ✚ Are there more bunnies or chicks?
- ✚ How many circles can you see?
- ✚ What is the smallest/largest circle you can see?
- ✚ Are there more pairs of ears or more pairs of eyes?
- ✚ If there was one more chick, would you have an equal number of bunnies and chicks?
- ✚ Can you use mathematical language to talk about the bunnies and the chicks?
- ✚ Can you see any lines of symmetry?
- ✚ Which season do you think this picture represents? Why?
- ✚ What fraction of the animals are chicks? What fraction are bunnies?
- ✚ Can you write a number sentence to represent the number of chicks and bunnies?
