

Remember to start with general questions about the picture

- ✚ Where might it have been taken?
- ✚ Why are there Remembrance Wreaths in the picture?
- ✚ What do you think the MN and MNA in the middle of the wreaths might stand for?

Put your “Llygaid Mathemateg” on. What do you see now?

- ✚ How many circles can you see?
- ✚ How tall do you think the face is?
- ✚ Can you find any perpendicular lines?
- ✚ Can you find any parallel lines?
- ✚ Can you find an acute, right and obtuse angle?
- ✚ What unit would you use to measure the length of the face?
- ✚ Is the face at more or less than a right angle to the ground?
- ✚ Estimate how many rectangles each section of railing has.
- ✚ Estimate how many poppies there are in each wreath.
- ✚ Look for a cross in the picture. How many different types of angles does the cross have?
- ✚ Do the letters M N and A all have a line of symmetry?
