

Professionally Speaking 2017

Notes by Cully Education

Let's start the
journey by
recognising the
importance of
teachers.

Early years education is
the biggest opportunity.
We need to introduce the
Welsh language to our
children at that time in
order to create fluent,
confident Welsh
speakers.

Meri Huws
Welsh Language
Commissioner

Can changing
education change
Wales?

One million Welsh speakers by
2050 is a very ambitious but
fantastic aim. Education forms a
major part of the solution. 4 out of 5
people over 65 learnt Welsh at home
and in the community. 4 out of 5
people between 5 and 15 years have
learnt Welsh at school.

Creating Welsh
language speakers is
one thing - creating
fluent Welsh speakers
that are confident to
use Welsh - that is the
challenge.

Taking
education as a
tool, you can
change the
world.
